

NAVAL SUPPLY SYSTEMS COMMAND

***Naval Ammunition  
Logistics Center***

# **Navy Serial/Lot Item Tracking**

**Ralph Sayers, NALC 4316**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## ***Naval Ammunition Logistics Center***

- **High \$ value items require detail other than quantity**
- **Items having certain material control codes**
- **B = Lot number**
- **C = Serial number**
- **E = Lot and serial**
- **K = Periodic**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## *Naval Ammunition Logistics Center*

- **Items having material control codes B, C, E or K**
- **Air and surface launched missiles**
- **Tomahawk Cruise missiles**
- **Torpedoes, certain mines and escape propulsion devices**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## *Naval Ammunition Logistics Center*

- **Provides worldwide visibility**
- **Maintain history of the lot/serial #**
- **Track maintenance due/expiration**
- **Provide periodic lot reports data**
- **Enhanced container visibility**
- **Provide descriptive defect code data**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## ***Naval Ammunition Logistics Center***

- **Maintenance due and expiration date tracking**
- **The maintenance due date (MDD) and expiration date is reported when the MDD changes due to a maintenance action or material is transferred between reporters.**
- **The type maintenance due (TMD) will be reported for AURs/components requiring different levels of maintenance on a cyclical basis**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## ***Naval Ammunition Logistics Center***

- **Container Tracking**
- **CAIMS SLIT applications have the ability to track containers for selected ordnance items when the container is associated with AURs that are reported by serial number**
- **The containers will be identified on a SLIT transaction by an alpha or numeric code**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## ***Naval Ammunition Logistics Center***

- **Periodic Lot Reporting**
- **MCC of “K”, indicates the activities must report all lot numbers and defect codes on a monthly basis to CAIMS**
- **Defect codes- further define and describe the material condition codes and are assigned when the condition changes. Consists of six alpha/numerics divided into four parts**

***Ready. Resourceful.  
Responsive!***

NAVAL SUPPLY SYSTEMS COMMAND

## ***Naval Ammunition Logistics Center***

- **Transaction item reporting activities submit BG1 and BG2 transactions with their TIRs but it is a separate transaction.**
- **Ammunition Transaction Reporting, (ships, NAS, MCAS) report the actual lot/serial as part of the transaction line.**
- **Serial/lot info is then recorded in CAIMS.**

***Ready. Resourceful.  
Responsive!***
